

Dear Sir / Madam,

I have just finished my graduation. Though don't get final result of my B.Sc. Engineering on Computer Science and Engineering. I have done several small project in the time of graduation. As a final year project, I have developed a web based real time messaging application using React, Node.js & Firebase. I have done so many voluntary work ( like: IEEE poster presentation volunteers, Junior Informatics Olympiad volunteers and so on). I have participated Inter university programming contest.

Since 2020, I have served per-time as a Web Developer for Cristal IT and Soft Ltd, Where I have been repeatedly recognized for developing innovative Web Application and systems. I am responsible for full lifecycle development of next-generation web application, from initial requirement gathering to design, coding, testing, documentation and implementation.

I have received Web Design & Development - 2019 award from LEDP for earn revenues through various online channels work on marketplace.

My experience developing user-friendly solutions on time and on budget would enable me to step into a software engineering role at your company and hit the ground running.

Sincerely,

Shitol Chandro Sarker
